PROJECTS

KAGGLE

- Cleaned and prepared data using multiple data cleaning techniques, such as imputation, PCA, statistic replacement, normalization, and normal distribution transformation
- Used different machine learning models, such as Random Forest models, Clustering models, and Ensemble models, in multiple competitions
- Visualized data with matplotlib and seaborn to highlight trends and patterns

PRICING OPTIONS

- Used the Cox-Ross-Rubenstein Binomial Tree model and the Leisen-Reimer Binomial Tree model to price American and European style options
- Used the Black-Scholes model to price European style options, display changes based on underlying price, and graph options strategies

CRYPTO DATA COLLECTION

- Used websocket and rest APIs to gather orderbook, volume, and orderflow data from the Kraken exchange
- Utilized Docker containers, the Docker Container Registry, and Google Cloud to collect data constantly
- Implemented Python scripts to optimize data storage using Parquet and Git

PROFESSIONAL EXPERIENCE

FAR POST SOCCER CLUB

Referee and Front Desk Management

South Burlington, VT

November 21, 2023–Present

- Created an automated script that generated score sheets for games, improving efficiency and accuracy
- Used Selenium and BeautifulSoup to scrape data from the website
- Used Pandas to clean and organize data, and then used PDFkit to generate printable pdf files
- Manage and organize front desk operations, including team registration, scheduling, and score management
- Referee over 250 hours, ensuring player and spectator safety, fair play, and clear communication
- Problem solve, conflict resolution, and decision-making in high-pressure situations

EXTRA

CITY FINANCE COMMITTEE
